

*Crafted to meet the
highest standards of
quality & performance.*

Our Products

We manufacture a wide range of premium components including:

- Alloy Steel Forged Shafts,
- High-Performance Forged Shafts,
- Aluminium Alloy Shafts,
- Durable Alloy Steel Crankshafts,
- Precision Alloy Steel Shafts,
- Polished Alloy Shafts,
- Steel Shafts,
- Ship Shafts in MS, Alloy, Steel,
- Axle Forging,
- Auto Part's Forging,
- Alloy 7075 T6 Shaft,
- Ring Forging,
- Spindle Forging,
- Cnc & Lath Machine Spindle Forging

Our Brand Family & Business Divisions

-  Bharat Forging
-  Nirav Machine Tools
-  Everest Machinery
-  Sattva Engineering Works LLP

COMPANY PROFILE

Bharat Forging a leading manufacturer of high-quality forging products, dedicated to delivering precision-engineered solutions for various industries, including automotive, aerospace, construction, and heavy tools, machinery. With state-of-the-art facilities, advanced technology, and a team of skilled professionals, we specialize in producing durable and reliable forged components that meet the highest industry standards.

Our commitment to innovation, quality, and customer satisfaction drives us to continuously improve our processes and expand our product range. Whether it's custom forging or bulk production, we ensure excellence in every product we manufacture, making us a trusted partner for businesses worldwide.

Our Mission

To deliver precision-forged products with innovation, reliability, and sustainability—building lasting partnerships and driving global industrial growth.

Our Vision

To be a global leader in forging, setting standards in innovation, quality, and sustainability driving progress through advanced manufacturing.
